

TRANE XB13c PACKAGED GAS/ELECTRIC HEATING AND COOLING SYSTEM

Your Profit-ability

Sell-ability

- ≡ Industry leader; solid brand reputation
- ≡ Clean, sleek lines; attractively updated design
- ≡ Great reliability and durability
- ≡ Quiet operation
- ≡ Choice of refrigerants, R-22 or R410A
- ≡ All-steel cabinet with appliance-grade finish

Install-ability

- ≡ Residential or commercial
- ≡ Easily converted for horizontal or vertical applications
- ≡ Factory built 12" and 18" duct covers for extra-clean, horizontal installation
- ≡ Panhead screws on supply and return panel for flush-fit duct connections
- ≡ Easy electrical and gas connections on the right side

Service-ability

- ≡ Easy access to compressor, blower and controls
- ≡ Liquid-line port in compressor compartment
- ≡ Drain pan is extra deep and steeply sloped to ensure drainage

Performance-ability

- ≡ Durable weather-beater top easily sheds water
- ≡ All-aluminum Spine Fin™ coil for long-lasting performance
- ≡ Energy-saving Vortica™ blower provides stronger airflow – quietly
- ≡ Up to 80% AFUE

Reliability

- ≡ Climatuff® compressor
- ≡ Stainless steel heat exchanger and burners for long life and added safety
- ≡ Weatherguard™ corrosion-resistant fasteners
- ≡ Extra-rigid, foil-faced insulation for cleaner, longer performance

It's Hard To Stop A Trane.®

TRANE LIMITED WARRANTY

- 10-year heat exchanger
- 5-year compressor and coil
- 5-year functional parts

A COMPETITIVE EDGE FOR YOUR BUSINESS.

The TRANE XB13c packaged gas/electric system is a competitive unit that delivers the **solid performance** and **lasting reliability** that has made Trane the most trusted name in the industry. Internal components such as Trane's exclusive **all-aluminum Spine Fin™ coil** and advanced **Vortica™ blower** are engineered for lasting performance, while the **clean lines** of the XB13c cabinet make

it an **attractive** addition to the exterior of any home. The hard-working components inside make it possible for your customers to enjoy an **optimal indoor climate**, year-round. With a **13-SEER** rating and **up to 80% AFUE**, and with a variety of comfort options to choose from, there's a packaged gas/electric system to **satisfy every customer need**.

Quiet operation

Features like our advanced Vortica™ blower and Climatuff® compressor keep sound levels down.

Reliable performance

Precision engineering, design innovation and rigorous testing for reliable, long-lasting performance and durability.

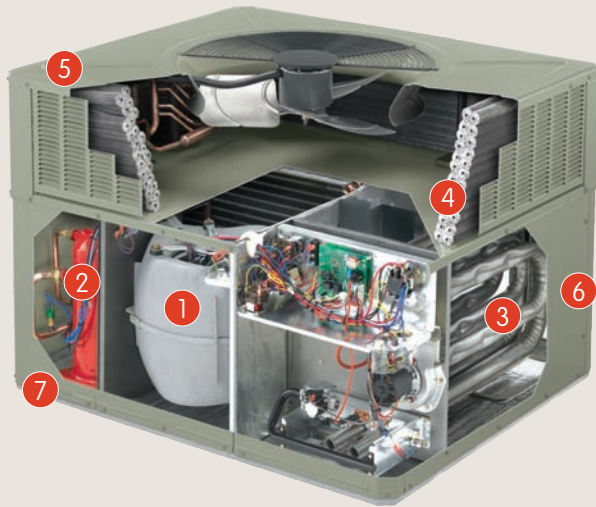

Contemporary updated design

The sleek styling of the XB13c complements any home exterior.

Comfort control

Give your customers better comfort control with a Trane digital or programmable thermostat.

TRANE XB13c PACKAGED GAS/ELECTRIC HEATING AND COOLING SYSTEM

Features and components may vary by model and are shown for illustration purposes only.

- 1 Composite Vortica™ blower**
Advanced system uses less energy to produce more airflow with minimal sound. Slides out for easy service.
- 2 Climatuff® compressor**
The standard for reliable operation. Delivers superior durability, cost-saving efficiency and quiet operation.
- 3 Stainless steel heat exchanger and burners**
Featuring a new ultrasafe tubular design for reliable performance and peace of mind.
- 4 All-aluminum Spine Fin™ coils**
Thousands of tiny aluminum fins provide a larger surface area, resulting in enhanced airflow and heat transfer. Less likely to clog or corrode than traditional copper/aluminum coils – even under the harshest conditions.
- 5 Durable weather-beater top**
Contoured and reinforced to shrug off the elements year after year.
- 6 Appliance-grade finish**
All-steel cabinet with baked-on powder paint for smooth, safe edges and years of protection.
- 7 Embossed service panels**
Allow easy access to compressor, blower and controls.
